

Sweet success with **STRAWBERRIES**

(Fragaria × ananassa)

Strawberries are delicious in a variety of dishes and desserts, or can be picked off the plant and eaten straight away!

They're rich in vitamins A and C and are low in calories - good for the waistline too!

Plant in full sun, in soil which has been prepared with compost and phosphates (bonemeal or superphosphate)

Keep well-watered - strawberry plants are thirsty

Feed with 3:1:5 SR fertiliser once the plants have flowered
