

September:

THE LOCAL MAGIC SPRING BRINGS

Looking for unique and unusual? Grow these indigenous plants and trees for a dash of wonder!

Funky flowers

Lion's Spoor (*Euphorbia clavaroides*) is a particular variety that produces a perfectly rounded mound of succulent stems with bright yellow blooms.

Spunky trees

The Toad tree (*Tabernaemontana elegans*) has a distinct umbrella-shaped growth habit and grey-green seeds resembling two little perching frogs.

Groovy grass

Sickle grass (*Pogonarthria squarrosa*) is texture-rich with multiple seed plumes that flash dramatically black when the sun catches them.

African blood lily (*Scadoxus puniceus*) in shaded beds.

False olive (*Buddleja saligna*) for the patio in a pot.

Bushy bulbine (*Bulbine abyssinica*) for full sun everywhere
